

Peter Corkindale (UKIP) - PCC Candidate for West Yorkshire

I was on radio Leeds on Friday (Liz Green) which you can hear on the iplayer in which I stated that CSE, FGM and all forms of abuse both inside and outside the home was a priority for me.

I would set up multi agency hub where all who were suffering from these heinous crimes would be able to attend safe in the knowledge that they would be listened to and their complaint dealt with properly. I believe that without a properly co-ordinated approach we would miss matters that could turn out to be vital.

However before I could do any of that I would ask that all the agencies and interested parties that you mention in your e-mail meet with me so that a co-ordinated approach can be made.

It is impossible for one agency alone to tackle this problem. I was in 1995 the head of the vice squad in Bradford and am probably the most qualified to deal with this heinous crime, nor am I a Johnny come lately as I have been advocating since 1995 a radical approach to what in my mind is simply abuse, abuse against women and in some cases children. I did write to the Home secretary Jack Straw at the time but sadly was ignored. If I am crime commissioner I will not be ignored again

Peter
